

## Opening screen layout

### 1) welcome page

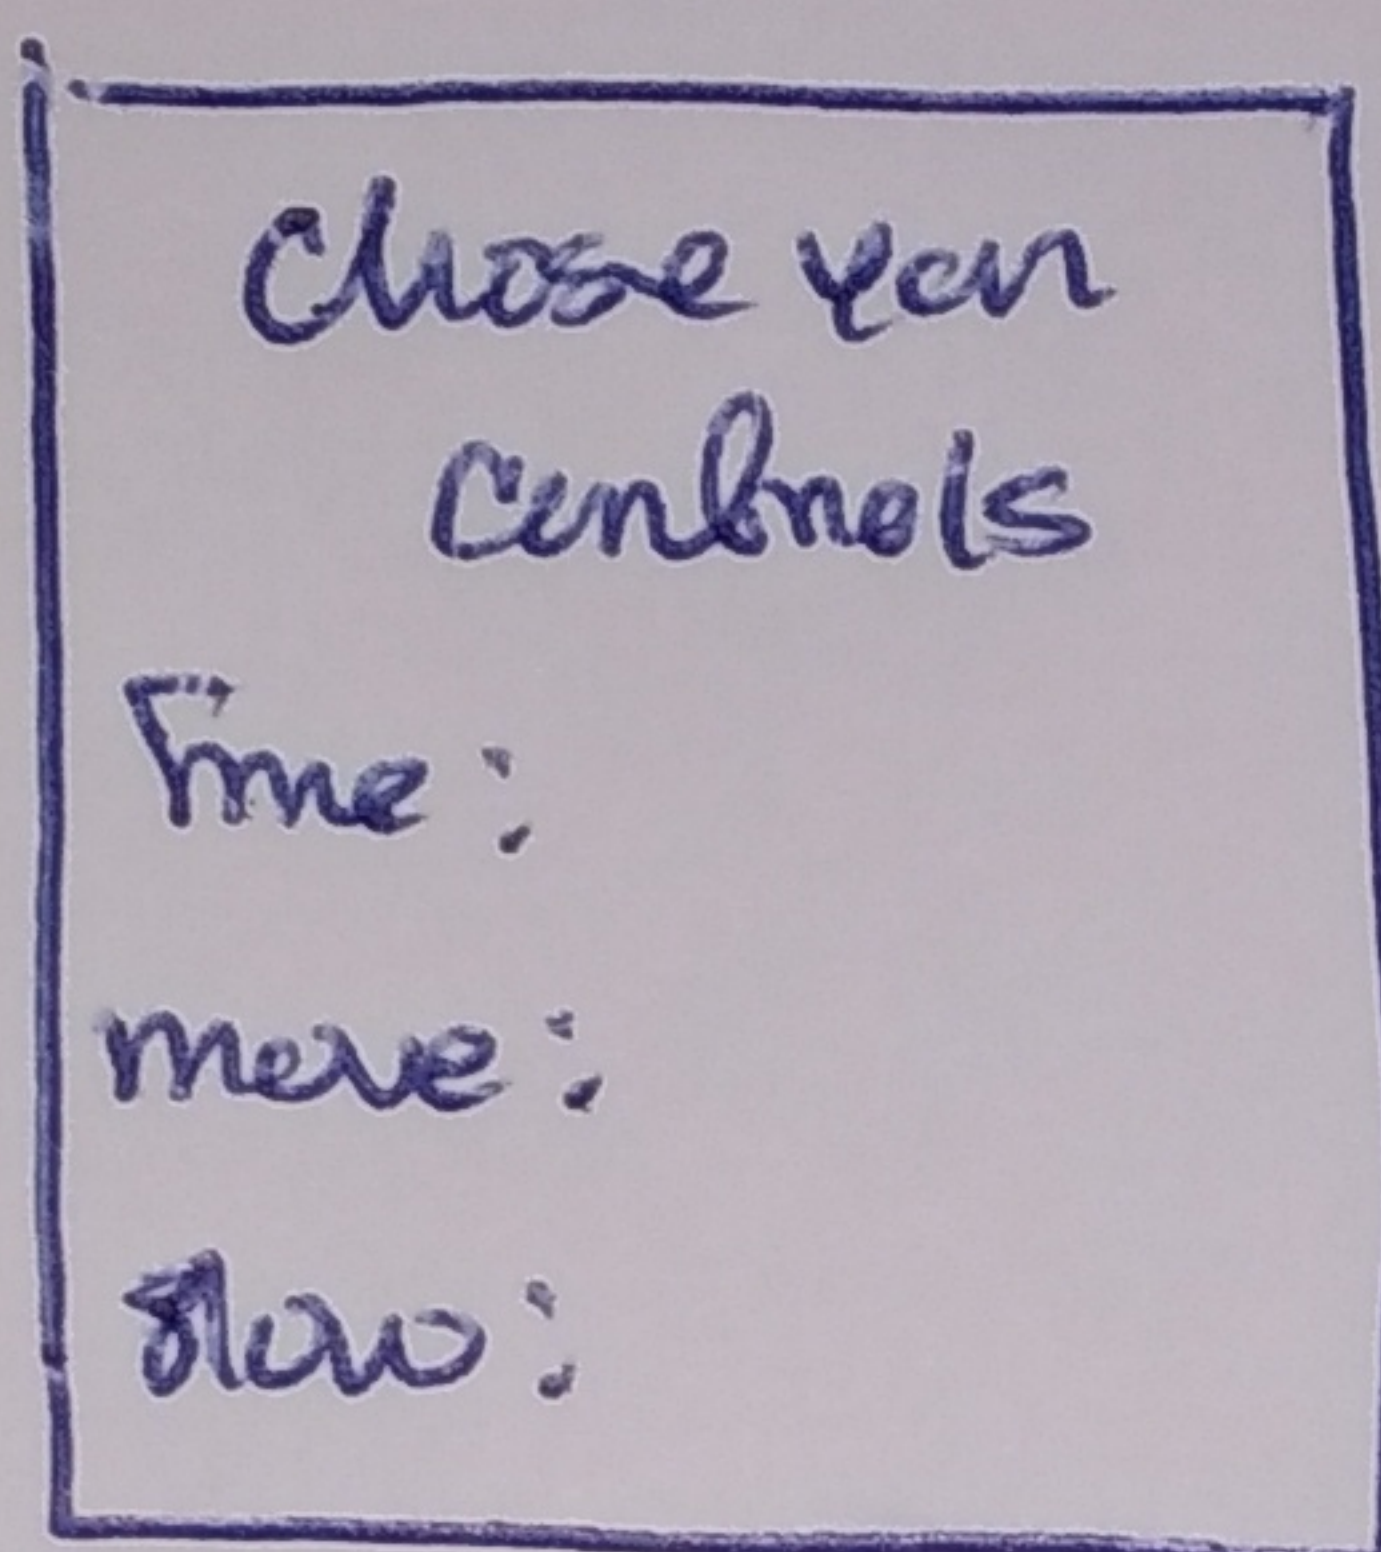

when space is pressed  
move on to the next  
page.

### 2) Choosing Controls

No user inputs,

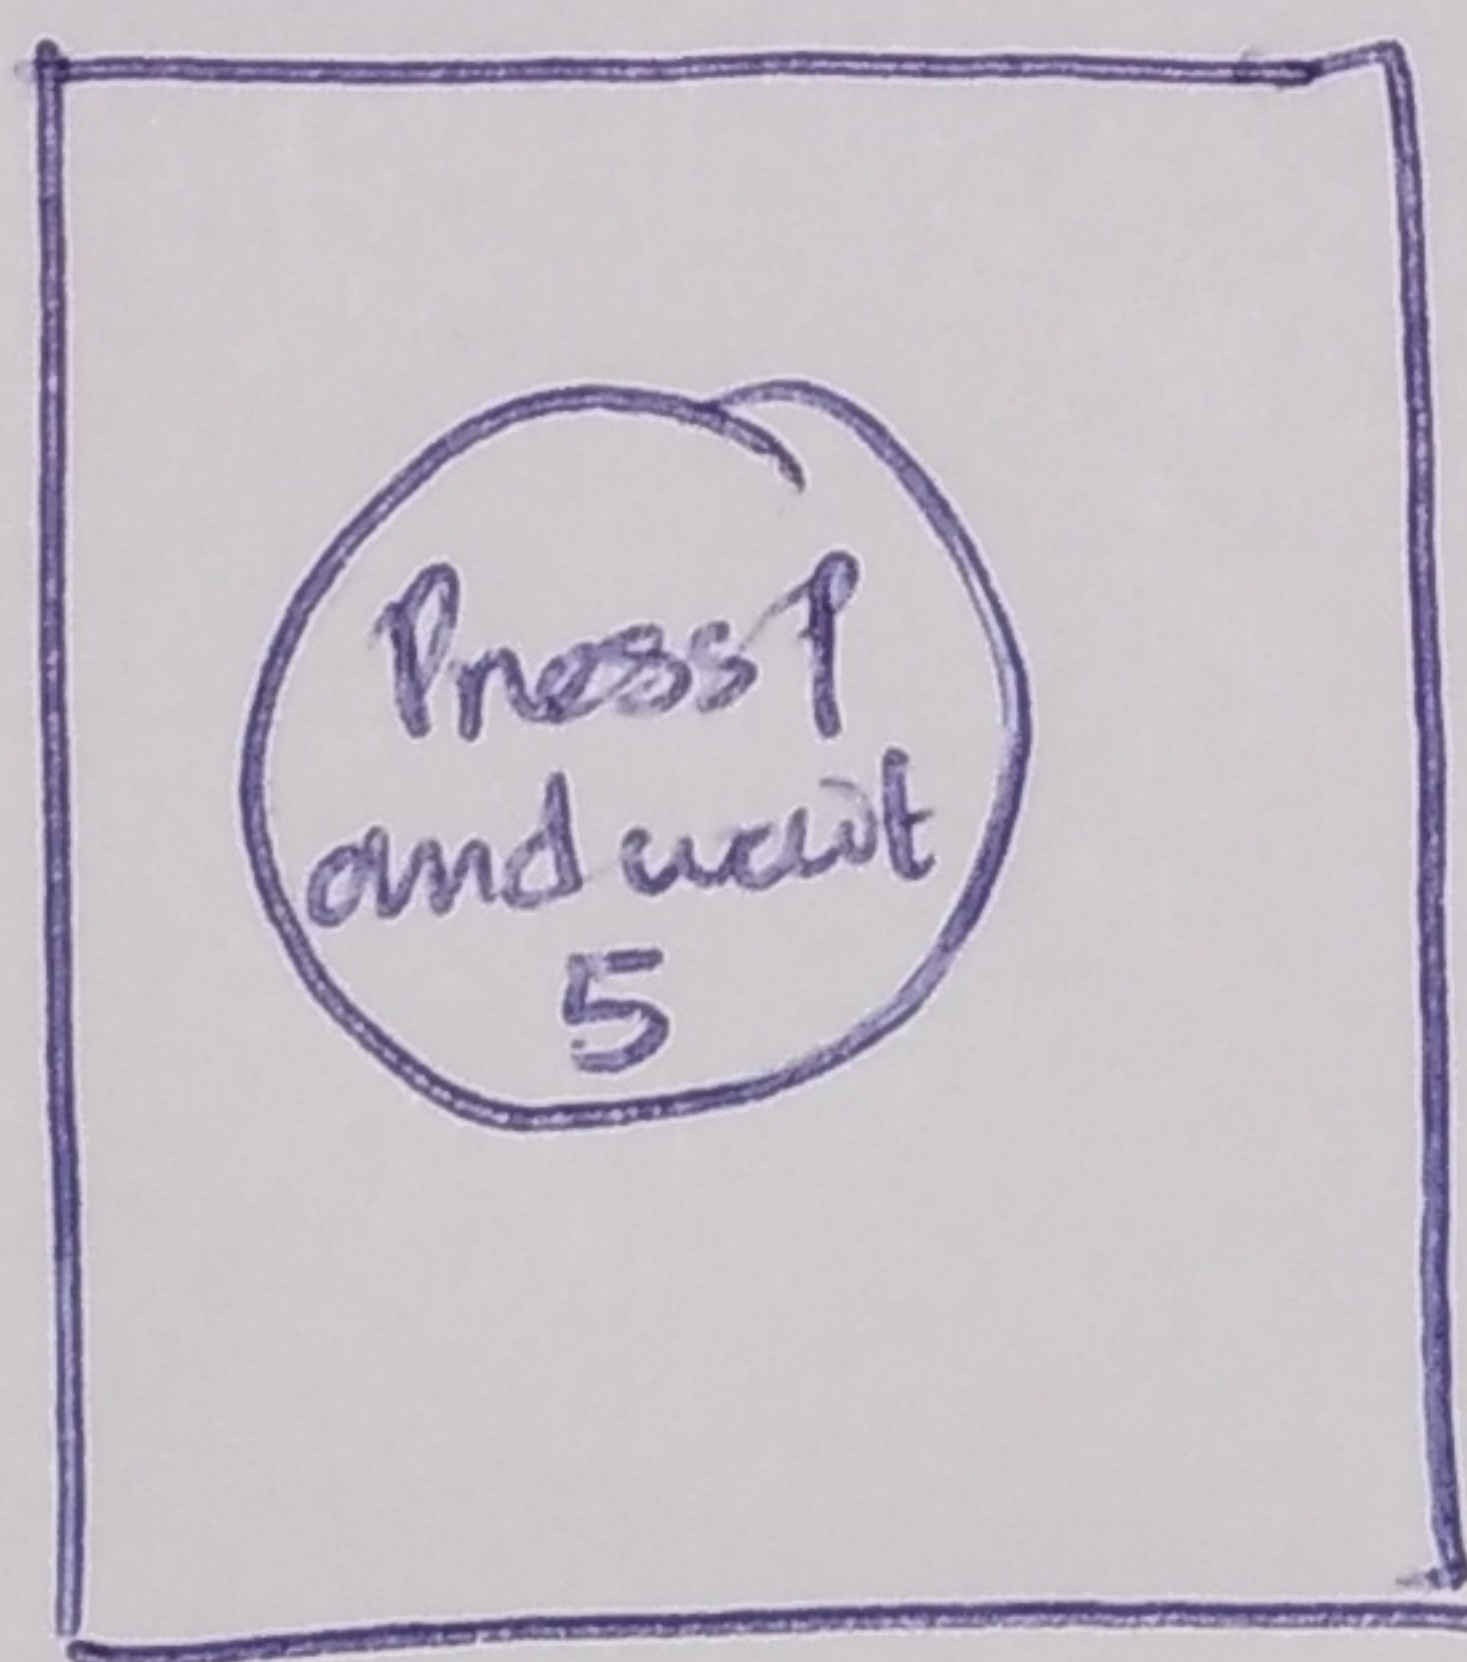

KeyPressed()

Am taking inputs

User can customize  
their own controls.  
They will be asked to  
confirm these controls

### 3) waiting Page

wait until "P" is pressed  
and then wait 5  
seconds Am level 1  
to start.

Please implement these changes after testlevel1 and  
main is merged.
